Many students attended the lecture "Russia will be Converted" by Mr. Haffert in Columbus Hall, October 27th.

At the October Sodality meeting a movie showing the work of the Sisters of St. Joseph and St. Patrick's Orphanage in Montreal was given.

On November the tenth, following the business meeting Miss Helen Heffernan, Director of the St. Elizabeth Visiting Nurses' Association, gave a most enjoyable talk.

On December the eighth, the annual reception took place in the chapel, followed by Benediction.

Twenty-one preliminary students were received into the Sodality on December 8th. The ceremony took place in the chapel, followed by Benediction of the Most Blessed Sacrament.

The Senior and Intermediate students had their uniform dances on November 13th and 14th.

The Silver Tea sponsored annually by the preliminary students was held on Sunday, November 9th. The proceeds are a donation to the War Memorial Trust Fund, of the Canadian Nurses Association for books for schools of nursing in Europe.

We were happy to have this opportunity of showing our families and friends the hospital, and residence, and to have them meet our teachers and classmates.

Our guests assembled in the residence reception room, and were escorted in groups by the sisters through the hospital. The tour included the operating room, which was particularly interesting to our friends, the out-patient department, and the "D" unit where we have been on duty.

Later the guests met for tea in the assembly hall where they were received by Sister Superior, Sister Louise and Sister Mary Kathleen. Miss Murphy, Miss Savage and Miss Donovan poured tea at the attractively arranged table.

During the tea hour, Miss Helen Kircconnell and Miss Lois LaFrance, accompanied by Miss Phyllis Nidderly, sang solos, and the group sang "Come Unto Him."

Benediction in the chapel brought a really enjoyable afternoon to a close.

The Annual Retreat for members of the January classes was held January 11 - 15th. Reverend J. Hennessey, S. J., was the retreat master.

OUR SISTER HOSPITALS

St. Joseph's Hospital, Toronto

St. Joseph's Hospital was organized to meet the great need for a Hospital to service the City west of Bathurst St. The Hospital building originally was an Orphanage, built in 1890 and converted into a 150 bed hospital in 1920-21. Two probationers, partially trained, from St. Michael's Hospital, greeted the first patient, Mr. Murphy, who arrived on October 15, 1921. The Hospital staff consisted of Reverend Sister Irene, the first Sister Superior; Miss Polly McBride, a graduate of St. Michael's, the first Superintendent of Nurses; Dr. Hayes, the first interne; Dr. Spicer performed the first operation, and Sister Melanie, the first nursing sister, replaced Miss McBride as Supt. of Nurses. She held this position for thirteen years.

St. Michael's training school took a deep interest in the early School of Nursing at St. Joseph's and directed the earlier classes. St. Joseph's students affiliated at St. Michael's for their operating room experience and training.

From this early beginning, the Hospital continued to grow and in September, 1930, a large extension was added bringing the bed capacity up to 364. In 1935, the new residence was erected, modern in every way, complete with recreation room, spacious auditorium, well equipped diet kitchen, laboratory, library, and tastefully decorated and furnished reception rooms, with accommodation for 150 residents.

And still the need for further beds and facilities arose. St. Joseph's is ideally situated at Sunnyside, overlooking Lake Ontario and surrounded with spacious grounds. Because of this location it serves the communities surrounding the western portion of the city and is an active emergency centre since it is the only Hospital between Bathurst St. and Oakville. Thus we find, in April, 1946, the breaking of the sod for the new extension which it is hoped will be completed in August, 1948. This will bring the bed capacity into the neighborhood of 650 beds. It will also provide for business and administrative office, modern kitchen and new dining rooms, a paediatric unit of 50 beds, a modern air conditioned nursery and extension of the Obstetrical Units, Operating Rooms, X-Ray Department, Laboratory and Surgical Supply. It will be modern in every respect and complete with all the latest time saving devices and scientific improvements available.

The Training School which started with the Hospital, has equalled it in advancement and development. Students are carefully selected and come from far and near. In January of this year, 46 probies received their caps, and this June will witness the Silver Jubilee of the Training School, the 25th Graduation Exercises. Sister M. Vianney is the present Superintendent of Nurses and much progress has been made under her guidance. As an example, this year saw the initiation of the system of block teaching for the whole Intermediate Group.

Nurses' Residence, St. Joseph's Hospital, Toronto

The Sodality of the Blessed Virgin Mary was organized in 1930 and gives both social and spiritual leadership in the School. In 1940 with Sister Electa as Superior, Sister M. Jeanette, inaugurated the 8 hour day, in three shifts, for the students and graduates. This is still in practice. All students affiliate at the Hospital for Sick Children for Paediatric Nursing, and affiliation in psychiatric nursing at the Ontario Hospital, New Toronto, is elective. To date, 582 nurses have graduated from St. Joseph's.

Sister M. Annetta is the present Superior. Sister Amata, was this year appointed as Superintendent. Sister M. Reine, Sister St. Irma and Sister Marie Stella will be found Supervising in the Hospital, with Sister St. Neilus in charge of the Operating Room and Sister Carmichael in charge in the busy Out Patient Dept. and Emergency. Hilda Kerr, a St. Michael's graduate, is in charge of the Hospital Health Service Dept.

It must be a source of well earned satisfaction to all those who have contributed to the St. Joseph's of today, to witness the phenomenal progress of the Hospital from its humble beginning to its present 600 bed stature in a period of 25 years! It is tangible evidence of all the prayers, hard work and faith of the Sisters of St. Joseph. They may well be proud of it as one of Toronto's leading hospitals.

CONGRATULATIONS TO

Capt. Matron Flora Brohman, formerly sister-in-charge at Camp Borden Military Hospital, who has been appointed Matron of the Kingston Military Hospital. Flora enlisted in 1940 with the R.C.A.M.C. and served overseas in England and Italy, returning to Canada in 1945.

IN MEMORIAM

Funeral services were held on Nov. 25, 1947, for Dr. Gordon S. Foulds, who died unexpectedly at St. Michael's Hospital after a lengthy illness.

Born near Brantford, Ont., Dr. Foulds was the fourth generation of pioneer stock. He was graduated from the University of Toronto at the outbreak of the first World War and immediately enlisted in the Medical Corps. During his nearly five years of active service, he rose to the rank of major and was one of the senior administrative men in the Canadian Second Division.

In 1919 he was granted a fellowship at the Mayo Clinic, Rochester, Minn., and served on the staff of that institution for four years. Since his return to Toronto, Dr. Foulds has been a practising surgeon. He was one of the charter fellows of the Royal College of Physicians and Surgeons of Canada.

The nurses of St. Michael's will miss Dr. Foulds' kindly presence around the hospital. To his bereaved family, the Alumnae offers the sincere sympathy of St. Michael's nurses.

Anyone having occasion to call ELgin 3803 these days will hear a familiar voice answer "St. Elizabeth Visiting Nurses." Her cheery voice is a great acquisition and a real morale builder for the nurses calling in on their rounds.
